To whom it may concern

From Edward Paul Donegan

Corpus Christi, TX 78401

A Protection Racket of State Actor power and significant international criminal reach has gained legal control over me, is tolerated by the public and media, and in repugnant synergy manages to combine racial, religious, and reproductive abusiveness in is form and activities.

My father took part on the atomic bomber of Hiroshima and Nagasaki in the 509th Bomber Group as a P-51 pilot as escort to the B-29 Stratofortress long range bomber, and later atomic testing tied my family genome to the worst and must offensive ever and still continuing science of Sidney Gottleib and ongoing MKUTLRA ties to State actor backed claims to and usage of my DNA, including racially and religiously, through sham systems and claims.

The scope of the racket tied to his is historic and criminal including espionage agency slush funds, racial and behavioral research violating human rights and experimentation standards, and CIA backed drug dealing and even reaches into the US history the Church Committee investigated in the 1970s but did not succeed in stopping.

The Protection Racket supported by an illegal government program under sham legal moves involves unwanted, unneeded, and hostile conservatorship., operating from a position of power, and in which from that position disrupts every day civil life such as private property of my own, and property held by the hostile conservancy not spent on me, and hat disrupts my private home ownership deals, those broken or stopped in advance by the trust fund, succeeds in braking my own high tech employment contracts or other money making contracts, and disrupts other civil activities and contracting for normal life, normal safe living conditions because it is those things which while a benefit to me are threat to the trust fund, a trust find in competition for the being the locus point of my life and normal living.

Abusively, this in the new and legally wild wild west era of designer baby (3rd Party Parenting) and black market and money laundering rights to family genome, racial eugenics, and genes rights for sale though illegally and racially abusively acquired and sold against either my will or the will of others and sold through money laundering rackets.

Under abusive living conditions and environments in which Conservancies do manage and exert financial and other control over such as record keeping, property access and property maintenance, I am subject to conservator-based money

laundering, property theft and property rights violations, and other elements tied to racketeering in the form of assets conservatorship.

The ethnic element, before we go to the manufacture of the position of power and creation of the abuse structure, is black nationalists, drug addicts, sex offenders, and various riff raff who have in interest in how the value of my DNA can be exploited by them without notice or tracking of that value to me is using my identity to spend the DNA rights on others including themselves while bragging to me they are doing so, they are, and expressly as an ethnically motivated hate crime form of abusive narcissism.

The language deteriorates here. “I am going to cut your balls off and fuck Jessica Simpson with them” several blacks have told me. In fact, though, I am white the position of power play is expressed to me that if upon planting evidence on me which would offend a white adult female, like child porn, the seeming hero of the scene, who was there when the child porn was planted/found, will be preferred by the white female.

There are several reasons this scheme works. Must conservatorship prefer social justice projects over far right-wing white males of establishment politics and bigotry (I am a Trump supporter) and the trust fund will back the non-white black nationalist over me because that is their cause, and the way the hostile conservatorship will use that person as me to sign away my rights is by assisting identity theft of me.

My mother Glorian Donegan left a private Special Needs Trust fund for me for use by me alone for after her death.

With the trust fund permitting and facilitating identity theft of my identity the money laundering and racketeering system operates like this, and I start with a reminder as to the nature and forms of Rackets.

Protection Rackets use threats or acts of harm to others as a criminal role to then approach the party being injured or threatened as the solution to the problem, such as becoming a protector of the threatened party; of course, for a fee (often exorbitant) thus removing threat.

It is similar to virus ransomware in electronics.

Protection Rackets are a specific form of Money Laundering generally, which uses seeming normal business transactions as a cover story for underlying criminal acts, the criminality of which is kept covert from the business accounting.

A form of Money Laundering is using a series of accounts, often shell or bogus accounts operated under fake identities, to “do business with” in some way real accounts even though the accounting is based in shams.

Use of Identity Theft allows a person who does not have assets managed by a trust fund to spend assets of a person the assets are for (beneficiary of the Trust Fund)

by using the Beneficiaries identity to incur expenses and pay expenses as though the beneficiary of the trust fund,.

The Trust fund expenditures look real since identity confusion was created by who was spending money from the trust fund, the beneficiary or the trust fund created dopple account.

Finally, a trust fund which is unneeded by the beneficiary, but provides services to the beneficiary only to be in position to exploit the value of the funds is itself a racket, knowing providing corrupt services rather than real services.

Members of the community, especially migrant farm workers in the Border Town Corpus Christi Texas I live in, especially various biker or Hispanic nationalist's identity organizations the Nueces District Attorney Mark Gonzales belong to, will harm each other in the form of exploitative photos taken while in the same vicinity I am in, was in, or will be in, or maybe never was at and never will be at.

A homeless person, drug addict, prison release program person, mental health care patient will be allowed to use my identity to

A) Pay for a sex worker
B) Confess to that sex worker, perhaps a dominatrix, he (while saying he IS me) has harmed others and owes them restitution to be paid from the trust fund, my trust fund, also paying for the sex worker he is confessing to.

The photographer is allegedly Ed Donegan, a Peeping Tom, and clothed minors while clothed if photographed in a provocative way are being exploited as child porn.

I call Homeboy exploits Homegirl (his wife or daughter) and then says Ed (me) took the picture while his wife or daughter was near, or they had "caught" me at a public area using my smartphone in that same area (for instance reading a book in a coffee shop, taking prank phone call, changing my music while I am working out) and thus the picture I did not take is ascribed to me and restitution is due.

I am not approached, but that same person, in my identity, may hire an adult sex worker, in my identity, trust fund backed, and all of them together will decide I must be a peeping tom and:

1) Pay restitution from my trust fund for that poor little exploited migrant girl who was photographed.
2) Pay the migrant family a fee to help protect against me in the future by getting cars to drive around town on patrol for future acts by me, on the watch it never happens to the community again.
3) In fact county budges, county programs, police overtime, and all sorts of policing activity can be re-imbursed in a migrant town separated by very rich second home owners on the Nueces Bay in mostly non English speaking undocumenteds with little prospects for a future being lifted out of poverty unless they have a deep pockets claim against a trust fund, and even one

representing an alt right bigot who looks down on their drug addicts, street crime, Hispanic politics, and crime gang pride of La Vida Loca and street cars, street racing, etc.,

In fact the slander campaign against an Alt Right, a bigot right winger, is part of the role of this for FBI, US Marhsalls, and others in Organized Stalking, also called Targeting Individuals, use of FBI and US Marshalls COINTELPRO activities, self-funding, to bring about reputation damage to far right wing activists.

The slander campaign is used against my Trust Fund, happily rewarding slander against the right wing and paying false pretenses claims brought by the under privileged.

MKUTLRA is in fact a larger explanation for this small, though abusive, piece of the story of the abuse of the FBI and others of my family line and assets.

My father and my mother were in the TS ULTRA, Most Kept Ultra, MKULTRA part of the Manhattan Project, perhaps more so than any other MKULTRA victims, and I was born under a CIA FBI backed espionage plan at Manhattan Beach, California, Inglewood home of the P-51 my father flew, and above ground atomic testing in Las Vegas and Starfish Prime Hawaii atomic blast proving grounds of the Department of Energy.

My family is actually from Boston Massachusetts, tied the assassination of JFK, and other activities by the CIA,NSA, DARPA, and others, and the State actors slander campaign against me, suing my trust fund to fund State backed programs, is a CIA backed plan running four generations of illegal acts and espionage history going into the 1920s and a rare gene tied to the Windsor family, the Kustcheras (Nazi gestapo general) and OSS CIA FBI activity surrounding that.

This is abusive to me, FBI and CIA backed, part of long running and destructive illegal acts, and it needs to be outed though currently the press is not reporting the activities of State backed actors in this, including the programs by Gregg Abbot and Ken Paxton of Texas USA who use my genome rights illegally in his personal religious programs under asset seizures from me, and also in veterans causes and funding State social programs under false pretenses from my private trust.

The slander campaign often enlists others, nominally in a passive way, asking private parties to pass ambiguous messages to me such as a teen might be in the areas sometime, but innuendo, or innuendo an adult entertainer is in the area.

The slander campaign comes from paid actors and businesses which likely have changed hands so that Espionage Agents-In-Place will facilitate a narrative necessary to back the Deep State theory, a theory which leads away from the culpability of people like the Bush family, Barr family (and others) who used positions for an illegal plot and now try to guide appearances away from the truth, and use created appearances to disparage truth tellers.

The innuendo is withdrawn if I pin it down and asking for something specific as to the intonation, what is actually happened is those around me are play acting

towards me I am maybe involved in activities, I am not, but the innuendo does apply to a dopple near me, all so vague though I seem tangled up in it by appearances only, allegedly, I don’t want to get caught, in reality I am not in the activities at all.

This takes only Cash and media ownership, and these Cartel families have that cash and the availability of strategically aligned bundlelers. Media companies like the Austin Statesman and Copus Christi Caller Times have had shake ups tied to my contacting them, some companies like Paul Allen connected enterprises or AT&T feature said to be Illuminati signature emblems., and rapid shake ups, and I think the Rorger Ailes death is tied to this as well, and also the downer web site Parlour.com

The bunko exists in it looks like me both committing the wrong then being caught, but only in a cloud of suspicions vague way, and I am not involved in the activities, I am being used as a cover story for those involved in the activities using my identity illegally.
